Review of Troops at Longchamp Enlivened by Visit From Santos-Dumont in Airship.

#### AERONAUT IS LOUDLY CHEERED.

Charge by Six Regiments of Cav alry Arouses Enthusiasm-More Popular Interest in Holiday Than for Several Years.

Paris, July 14.—The French national holiday was enthusiastically celebrated to-day in brilliant weather.

The main feature was the review of the garrison of Paris. The troops assembled at Longchamp at an early hour, before the heat became oppressive. Many spectators witnessed the arrival of the soldiers, cheering the favorite corps as they reached the General Andre, the Minister of War, no

ompanied by a brilliant staff and the formilitary attaches, soon followed. At 9 o'clock an artillery salute announced the arrival of President Loubet, who was neapanied by Premier Combes and other Cabinet Ministers and the President of the Senate and Chamber of Deputies, whom General Andre and the Military Governor or Paris and their staffs escorted to the reclewing stand.

Mme. Loubet soon followed and the review commenced, ending with the usual stribution of decorations.

The charge was executed by six regiments of cavalry, which were drawn up in fine style about fifty yards in front of the presidential stand, and aroused the greatest enthusiasm on the part of the spectators. Immediately afterwards M. Loubet and the Ministers, with their excerts left Longhamp, warmly applauded along the route. s they had been while proceeding to the eview ground.

A novel incident of the review was the ppearance of Santos-Dumont in an airappearance of Santos-Dumont in an airship over Longcramp. He saluted the
President with three strident blasts from
the whistle of his motor and with a salvo
of revolver snots. Then, amid the applause
of the spectators, the aeronaut sailed off
rapidly to his headquarters at Puteauc.
The heat was tempered by a cool breeze.
The Parisians and many visitors from the
suburbs and neighboring parts of the Province crowded the streets and boulevards,
which were gayly adorned with flags, the
Stars and Stripes mingling in the decorations. The Government and other theaters,
which gave free matinees, were densely
crowded.

The spen-air performance in the square in front of Victor Hugo's residence was well attended, while dancing was in full wing at many points in the streets. It was noticeable that the fete was accompanied by more popular enthusias; than has characterized any celebration i

shall deliver the \$10.80 in dispute to the Federal Cohrt.
Judge Thayer on June 27 issued an order restraining Mrs. Bryan from disposing of the money and instructing her to appear on July 13 and show why she should not turn the money over to the court. On that date her attorneys, S. T. J. Smith and Thomas S. Meng, filled a return, in which they contended that since the State courts had rendered a judgment assints Mrs. Bryan, and slices the last appealed the matter to the Sapreme Court and given hend not to dispose of the money, she should not be compelled to turn the money over to the Federal Court.
Judge Selden P. Spencer, the attorney for the Heraid Tomparty, argued that, though she had appealed the case, that did not warrant her in retaining the money. This point will be decided by Judge Regers today.

Dyspepsia Can Be Cured. TICKETS S. F. and Union Stat The Prescription of a Specialist Now

Offered to the Public.

There is probably no disorder in the list

of allments that afflicts the human body so

prevalent as Dyspepsia, commonly called indigestion. Scientific men have of recent years given much attention to this disease its cause and effect, and as a result many important facts have been discovered which have had a bearing on the adoption of new and better methods of treatment. The stomach is necessarily the seat of the disease, but it has been shown that the trouble involves also other organs, and is the start ing point for grave disturbances. The star vation diet for dyspentics is an exploded theory which in practice has worked much harm. Nourishment of the body is as necessary to the invalid as to the robust, and the object of medical research has been to find a way to nourish the patient without taxing the organs of digestion and at the same time to build up anew the nervous filaments of the stomach. A treatment has been discovered which has successfully met these requirements both in the acute and chronic forms of indigestion, and the means employed to obtain this result are found in he remedy known to the profession and to the general public under the name of EUPEPSIA TABLETS, now offered to the public at large as a convenient and certain cure for the disease arising out of a disordered condition of the stomach and digestion. The action of EUPEPSIA TABLETS is strengthening and stimulating. They promote the flow of gastric juice, tone the disordered stomach, sharpen the appetite, increase the power of the digestive organand contribute to the proper nourishmen of both the body and brain. One tablet befor eating will prevent that distress so much dreaded by dyspeptics as an after effeet to a hearty meal, and the continued use for a reasonable time will render the stomach capable of digesting ordinary foo; efficiently and without the slightest discomfort, thus performing a complete cure Any one who desires to try this remedy may obtain a box at any first-class druggist's or direct for 50 cents.
